## Spanish 2, Semester A

### Course Overview

Learning a language is a multi-faceted experience in which you are introduced to a whole new set of words and ways of expressing yourself with words, along with new cultures formed by people who have been speaking that language for centuries. The Spanish-speaking world is vast and rich, spanning Spain in the Iberian Peninsula and many parts of North, Central, and South America, all with varied ethnic and political histories and cultures.

In Spanish 2A, you'll be reintroduced to Spanish in common situations, beginning with describing classes, school friends, teachers, and school supplies. You'll discuss different styles of dressing, housing and neighborhoods, and learn about relationships between family members and friends, students and teachers, and employees and employer. You'll also describe daily personal routines and schedules, household chores and family responsibilities. Finally, you'll discuss different types of cuisine, dining establishments, and dining etiquette. You'll build on what you learned in Spanish 1B to communicate by listening, speaking, reading, and writing in Spanish as you internalize new vocabulary and grammar. You'll also learn about some regions of the Spanish-speaking world where the central characters of each unit are visiting. You will build on this semester's work as you advance in your Spanish studies: everything that you learn about a language and the cultures in which it is spoken will serve as a foundation for further learning.

### Course Goals

By the end of this course, you will be able to do the following:

- Use subject pronouns correctly in speech and writing.
- Use regular present tense verb endings of **-ar**, **-er**, **-ir** verbs and **go/yo** verbs: **hacer**, **poner**, **tener**, **decir**, **salir**, and **venir**.
- Use correct masculine and feminine definite and indefinite articles.
- Use correct gender and number with nouns and adjectives.
- Use interrogative words and question formation, including tag questions, negation, and inversion.

- Use time order words and phrases: **la semana pasada** (last week), **el verano pasado** (last summer), **la noche antes de ayer** (yesterday evening), and **anteayer** (the day before yesterday).
- Make comparisons of equality and inequality.
- Correctly place object pronouns in commands.
- Use verbs and phrases for ordering food (**pedir**, **servir**, **freír**, **repetir**, **reservar**, and **me gustaria**).
- Use spell changers in the present tense (**zco** in the **yo** verbs, **-ger** verbs that spell change to **j** in the **yo** form).
- Use cooking terms in the imperative (**medir**, **hervir**, **añadir**, **cocinar**, **cortar**, **preparar**, and **hornear**).
- Use frequency words (**una vez**, **muchas veces**, **con frecuencia**, **a menudo**, and **nunca**).
- Use correct verbs to form idioms/idiomatic expressions.

## Language Skills

Spanish 1B is a prerequisite course for Spanish 2A. The following fundamental concepts and skills will be helpful.

- a basic knowledge of parts of speech, such as noun, verb, subject, adjective, and adverb
- the ability to read and speak English and compose paragraphs or lines of dialogue that form a coherent whole
- a basic understanding of world geography

## General Skills

To participate in this course, you should be able to do the following activities:

- Work with word processing software such as Microsoft Word or Google Docs.
- Work with presentation software such as Microsoft Power Point.
- Do online research using various search engines and library databases.
- Communicate through email and participate in discussion boards.

*For a complete list of general skills that are required for participation in online courses, refer to the Prerequisites section of the Plato Student Orientation document.*

## Credit Value

Spanish 2A is a 0.5-credit course.

## Tips for Language Learning

- Relax and enjoy yourself: To continue learning a new language, you will build on what you have already learned and incorporate new vocabulary and grammar concepts with the old, increasing your ability to communicate by listening, speaking, reading, and writing as you progress. To foster your progress, concentrate on communicating, not on using a new language beyond your current abilities. You will make errors, so look for improvement in your ability to communicate rather than perfect replication of the language you are learning.
- Immerse yourself in the language as much as you can. Replay audio, especially extended audio passages, to gain familiarity with the sound and meanings of the language. Look for opportunities to learn songs and watch multimedia content in the language.
- Take advantage of and create additional opportunities besides those offered in the course to communicate in the language in everyday situations.
  - Use the audio recorder device provided with this course package (or any other recording device installed on your PC) to practice speaking, and play back your recordings to check for vocabulary and grammar usage and clarity of pronunciation (not perfection).
  - Practice reading the language aloud.
  - Use the discussion forums provided to practice communicating in written form with other learners.
  - Look for online language practice chat forums and real-life situations in which you can use the language, at whatever level you are comfortable with.
- Use the opportunities offered in the course to compare your responses with the sample answers provided in written form or as audio files. Your responses need not be exactly the same as the sample answers; rather, you should check for correctness of vocabulary, grammar, and pronunciation. If you're in doubt, you may consult your teacher (or anyone else you know who is proficient in Spanish).
- Learn the language in the context of the words and the situations in which they are used, instead of learning by a process of translation between Spanish and English.
- The language you are learning in this course uses symbols, such as accents. Use these [instructions](#) to learn how to enter these symbols using your keyboard.

## Course Materials

- Notebook
- Presentation software
- Computer with Internet connection and speakers or headphones

- Recording device on your computer for practicing and for teacher-submitted audio tasks
- Microsoft Word or equivalent
- Microsoft Excel or equivalent

## Course Pacing Guide

This course description and pacing guide is intended to help you keep on schedule with your work. Note that your course instructor may modify the schedule to meet the specific needs of your class.
